**A. Overview of Information Collection**

Title of Information Collection: “Requirements for Notification, Evaluation and Reduction of Lead-Based Paint Hazards in Federally-Owned Residential Properties and Housing Receiving Federal Assistance”.

OMB Approval Number: 2539-0009.

Type of Request: Renewal with some changes due to program changes.

Form Number: N/A.

Description of the need for the information and proposed use: provision of a pamphlet on lead poisoning prevention to tenants and purchasers, provision of a notice to occupants on the results of hazard evaluation and hazard reduction activities, special reporting requirements for a child with an environmental intervention blood lead level residing in the unit, and record keeping and periodic summary reporting requirements.

Respondents: residential property owners, housing agencies, Federal grantees, tribally designated housing entities or participating jurisdictions.

The revised hour burden estimates are presented in the table below. In that table, the \$15.36 hourly cost per response reflects the weighted average of cases, first, in which the respondent is simply giving someone a pamphlet, putting something in a file, or retrieving something from a file, and sending summary information from it to the Department, valued at \$10.61 per hour; and second, processing notices as above as well as providing information in cases of lead-poisoned children, valued at \$16.97 per hour. (These labor rates have been escalated by 3% from 2013 based on the Census Bureau's constant quality housing construction price index, since the work is in the housing trades.)
